Will your bus driver files pass a State Police Audit?

LET ITI SAVE YOU TIME AND MONEY WHILE KEEPING YOU IN COMPLIANCE!

ITI offers everything you need to keep your Driver Files in compliance with one easy to use online program. ITI's Driver File program offers more than just electronic DOT applications and forms, with ITI's program you have access to DOT Pre-Employment Screenings (PSP), Motor Vehicle Reports (MVR), Criminal Background Checks (CBC), all in one centralized easy to you use portal.

Indiana Testing, Inc. offers a complete administrative program for CDL driver files from hire to termination.

- **Review and update all current driver files**
- **Supply all necessary and required forms**
- **Process and complete new driver files immediately**
- **Review physicals, notification sent 90/60/30 days before due, send copy of physical to state**
- **Review driver licenses, keep current, notify 90/60/30 days before due**
- **Update annual review of driving record, compare with current MVR**
- **Yellow Card tracking**
- **Full ability to download complete driver files**
- **Advise employer of problem drivers**

LEARN MORE ABOUT OUR SPECIALIZED PROGRAMS BELOW:

MOST POPULAR SUMMER TRAINING PROGRAMS, led by Retired Indiana State Trooper,
James Addison

CONFLICT RESOLUTION FOR UNRULY STUDENTS: This training will take an in-depth look at school bus drivers, student discipline and conflict resolution.

This is a great learning tool for all drivers – both new and experienced!

- Does your school have discipline guidelines?
- Does your school have a policy with rules and consequences for violations? Is it enforced?
- How can school bus drivers protect themselves and their students from aggressive actions and behavior students?
- Should school bus drivers receive training in self-defense techniques?

RADIO ETIQUETTE: It is often very difficult to hear things on a 2-way radio if all drivers are talking at the same time. No one is listening, no one can be heard, and therefore no one is paying attention.

- Give the proper radio call sign for the situation that you are calling about.
- Learn how to speak radio to radio, not person to person.
- Learn exceptions and variations of radio use.
- Procedures during emergencies.

SEAT BELT AND EVACUATION DRILLS: Indiana Law requires biannual school bus evacuation drills and biannual seat belt instruction is required if seat belts are installed on the buses.

- Must be completed within the first 45 days of each semester.

ACTIVE SHOOTER TRAINING: Indiana Testing Inc. has developed a training session for civilians who find themselves in active shooter situations.

- What are scenarios that may trigger an active shooter.
- What law enforcement will do when they enter and what you can expect.
- What to tell law enforcement responders and what not to do.
- What you can do if you have escape avenues.
- What to do if you have no escape avenues.
